Our CAMPUS

The Full Sail Advantage

Full Sail has a different approach to education, from accelerated programs to tuition that includes all books and lab fees.

Here are just some of the factors to consider:

Half the Time

Classes are offered monthly, so a degree that would normally take four years takes 24 months on average.

Cost of Living

Since you won't be in school as long, you'll need to fund fewer years of housing and living expenses during your education.

Full Sail's Tuition is Locked

Unlike most U.S. universities, tuition is set for the duration of your program and doesn't rise from semester to semester.

What's Included?

Normally books and supplies are a major educational cost. At Full Sail, these items are included in tuition.

Start Anytime

Full Sail's degree programs start every month, so you don't need to wait for fall to begin your education.

Come Back Anytime

You can return to Full Sail and take a current course within your degree program, on an available-seating basis.

Project LaunchBox™

Work and create from anywhere – all Full Sail students receive a MacBook Pro preloaded with industry software at an institutional discount.*
