Getting you ready for your studies and/or career

“When I came to Canada, I understood half of what people said and couldn’t communicate my thoughts properly. That changed with EAP. I was able to proofread grammar and practice writing, reading, speaking and listening. My English is understood today because I studied in NC’s EAP program and now English has become my second language, which is a credit to my wonderful teachers. The EAP program helped me a lot with my post-secondary studies, with getting a job, and with being able to talk to people here.”
