Where It's At

Our campus is located in Olds, Alberta, a scenic small town surrounded by wide open prairies with beautiful views of the Rocky Mountains to the west. The town of Olds has everything you might need from big box stores and fast-food favorites to local shops, services and events.

For those who are looking for city life, Calgary is less than an hour to the south and Red Deer is just 40 minutes north. A short drive 45 minutes west of Olds will put you in the heart of the rolling foothills and Rocky Mountains.

On our scenic campus, you can enjoy 25 acres of botanic gardens and constructed wetlands. Not just a walk down the traditional path, the gardens are designed to meet the instructional needs of courses and programs on campus, and provide a living research lab for the College.

Olds College also offers unique shopping experiences that support our students and programs. Pick up some local craft beer at our Brewery, a variety of steaks, sausage and more from our campus Meat Store, or fresh flowers and vegetables from our Greenhouse.

Quick Facts

Olds College opened its doors in 1913.
That's **over a century** of offering
high-tech, hands-on, quality education.

Olds College offers
ACAC athletics in
**basketball, volleyball,
soccer, futsal, curling, badminton**
and **women's hockey**.

We also have a **varsity rodeo** team.

We are home to the **Canadian Equine Centre of Innovation**

a \$9 million facility that includes two riding arenas, livestock labs,
multifaceted equine reproduction centre and a boarding centre.

82%
of students are
from Alberta

Other countries include: Australia, Bahamas, Brazil,
Cameroon, China, Germany, India, Israel, Jamaica, Japan,
Lithuania, Mexico, Netherlands, Paraguay, Serbia, South
Korea, Uganda, Ukraine, United Kingdom and USA.

**Students are able to work with millions of dollars worth
of new equipment and technology** donated by industry
including computers, farming and lab equipment.

SMART Farm

An exciting initiative that is transforming the College's existing farm into a **farm of the future** by incorporating the latest technologies aimed at improving productivity, while efficiently and sustainably using resources.

The Smart Farm is creating a cutting-edge learning environment for students and life-long learners to learn about ag technology.

Our state-of-the-art athletic centre includes: Three basketball courts, Three volleyball courts, 11 badminton courts, two multipurpose rooms and an indoor 200 metre running track.

Average class size is **25**

96%

of current students would **recommend Olds College** to a friend.

CANADA'S TOP
50
RESEARCH COLLEGES

Olds College is ranked within the **top 50 research colleges** in the country.

Our campus covers **over 2,000 acres**

and includes our smart farm, botanic gardens and constructed wetlands.

Make Your College Years Count

Live on Campus

Make the move to residence. Enjoy the convenience, community and safety of living on campus! We have two types of housing to offer:

Centennial Village, the new building on campus, offers private suites featuring a washroom, double bed, desk and chair. While you'll appreciate the privacy of your own room, common areas and lounges offer friendly social spaces where you can get to know your neighbours.

College Courts are four bedroom townhomes that feature two shared bathrooms, kitchen and common living room. College Courts are a favourite with our second year students.

Living in residence is so much more than a living space, it provides a safe and convenient home away from home for our students! With 24-hour security and a whole team of residence staff, you'll always have someone to help you out.

Along with being safe, our residence life team focuses on fun! Weekly events are held for students in residence, from open mic nights to cheering on your favourite NHL team. There's always a variety of social events scheduled.

Living on campus also provides the closest commute to your classroom, so you can hit the snooze button a couple more times in the morning.

Experience more: oldscollege.ca/housing

Dining on Campus

The last thing you have to worry about at Olds College is where to eat. Our main dining hall, Elements Dining Fusion, offers a huge selection of menu choices. Students on a meal plan may choose any food and beverages available as often as they wish when dining in the cafeteria.

Student Health & Wellness

Your Success is Our Commitment

At Olds College our programs are diverse just like every individual who walks through our doors. As a student, you are not just a number but a part of the Olds College family. We are committed to empowering each of our students for success! Our Health and Wellness team is here to help you reach your optimal level of performance.

We offer support services in the following areas:

- **Counselling**
- **Health Services (Nurse, Doctor, Massage)**
- **Indigenous Services**
- **Test Centre**

Experience more: oldscollege.ca/studentsuccess

Learning Commons

The Learning Commons is more than just a library, offering free services and resources to help you succeed. It is a collective space where you can collaborate with others students and access the 24/7 computer lab.

- **Library:** borrow books, ebooks, laptops, iPads and more
- **Technical Support:** our friendly staff can assist you with software, devices, passwords and more
- **Learning Centre:** offering events, tutors and training in time management, organization, reading and note taking, exam strategies, job search tools and more
- **Accessibility Services:** offering a variety of supports and services for students with diagnosed disabilities, mental health diagnosis, or learning challenges. Accessibility Services works to remove barriers and promote success.

Experience more: oldscollege.ca/learningcommons

Go Broncos

Olds College student athletes compete at the highest level in the provincial Alberta Colleges Athletic Conference (ACAC) and national Canadian Collegiate Athletic Association (CCAA) leagues. We have teams in men's and women's basketball, volleyball, soccer, futsal, badminton, curling and women's hockey.

Olds College is also home to a well-recognized rodeo program. Our varsity rodeo athletes compete in the Canadian Intercollegiate Rodeo Association (CIRA).

Whether you're playing in the game or cheering from the stands, all our students can enjoy the thrill of sports.

Experience more: gobroncos.ca

Fitness & Recreation

A wide range of recreation opportunities are offered to our students through the CLC Fitness Centre located on campus. The centre features three gymnasiums, racquetball/squash court, 200 metre running track and workout equipment. Intramural leagues, access to the Outdoor Centre for outdoor gear rentals, and the Olds Aquatic Centre are also available for all students.

campusalbertacentral.com

Program Fit

The following information is based on Holland's Theory of Career Choice. Select the categories that describe you best and match the colour of those categories to the corresponding Olds College programs.

Investigative I

You are interested in working with data and ideas, especially in science and math. You are skilled in analyzing information and performing research. You value activities that involve all areas of science and math, and using data to solve problems. You consider yourself a “thinker” and someone who is precise, intellectual and who would enjoy working independently in an indoor setting.

Realistic R

You are interested in working with “things” like animals, machines or equipment. You are skilled in working with your hands and using tools. You value activities that require motor coordination, fixing things and using common sense to solve problems. You consider yourself a “doer” and someone who is practical, often competitive and who would enjoy working in a non-traditional work environment (outdoors, not in an office).

Conventional C

You are interested in working with data, especially where you are able to follow structured rules and regulations. You are skilled in working with numbers and data. You value activities that involve working with information and performing tasks in an orderly way. You consider yourself an “organizer” and someone who is business-like, efficient and who would enjoy working in a structured and orderly setting.

Artistic A

You are interested in working with ideas and things, especially where you can be unique and innovative. You are skilled in writing, drama, music and/or art. You value activities that involve expressing yourself, using your imagination and using creativity to solve problems. You consider yourself a “creator” and someone who is original, inventive and who would enjoy working in a collaborative setting.

Social S

You are interested in working with people, especially where you can help them in some way. You are skilled in listening, building relationships and communicating. You value activities that involve interacting with others, contributing to your community and solving societal problems. You consider yourself a “helper” and someone who is compassionate, friendly, and who would enjoy working in a collaborative and social setting.

Enterprising E

You are interested in working with people, especially where you can be a leader. You are skilled in communicating and selling things or ideas. You value activities that involve working with people, taking risks and using data to solve problems. You consider yourself a “persuader” and someone who is ambitious, sociable and who would enjoy working in a competitive and fast-paced setting.

Agriculture

Agricultural Management Diploma

- **Agricommerce Major**
- **Agricultural Production Major**

2 Year Diploma | September Start | Olds Campus

Receive a comprehensive education working in production agriculture, agribusiness, or businesses that process, market and distribute products from agriculture. You will gain skills in crops and livestock, finance, agribusiness management, marketing and the latest technology. Students will be able to choose between two areas of focus during their studies, the first will focus on agriculture production, the second will focus on the many business aspects of the agriculture industry.

Bachelor of Applied Science (BASc) Degree - Agribusiness Major

+2 Year Applied Degree | September Start | Olds Campus

The only program of its kind in North America. You can earn while you learn to apply business skills to analyze, debate and solve current agricultural industry challenges. Entry to the program requires the completion of a two-year diploma in a related discipline. A required directed field study provides eight-months of hands-on experience with an approved employer.

“The unique structure of the Agribusiness program allowed me to apply academic theory, under the guidance of experienced mentors to an employment opportunity.” Sepp Felder, Graduate

Agriculture Technology

***NEW* Agriculture Technology Integration Post-Diploma Certificate**

1 Year Post-Diploma | September Start | Olds Campus

This dynamic NEW post-diploma certificate in Agriculture Technology Integration is designed to provide students with an understanding of how related technologies and components interact to provide accurate information and real-time monitoring and controls to the agriculture producer. You will be provided with opportunities to recognize the connectedness of, and interactions between hardware and software to enable producers maximum uptime in the field. You will learn to link emerging technologies with existing farm infrastructure including the installation, calibration, troubleshooting and repair of precision agriculture hardware and equipment, including mechanical, hydraulic and software systems.

***NEW* Precision Agriculture - Techgronomy Diploma**

2 Year Diploma | September Start | Olds Campus

The Precision Agriculture - Techgronomy program is an exciting NEW diploma focused on agronomy and technology. Graduates from the Diploma in Precision Agriculture - Techgronomy will be prepared for careers that require a deep understanding of the connectedness between agronomy, agriculture machinery/purpose built network management, and data sciences.

“Working with industry partners and producers, Olds College identified a significant skills gap exists within the agriculture industry when it comes to supporting producers adopting technology. Graduates from these programs will be able to fill that demand.” James Benkie, Dean, Agriculture Technology.

Animal Science

Animal Health Technology (AHT) Accelerated Diploma

16 Month Accelerated Diploma | July, October and March Start | Olds Campus & Online (Blended)

This new accelerated diploma will equip you to provide hands-on care to both large and small animals. You will be taught a Canadian Veterinary Medical Association (CVMA) accredited curriculum delivered by staff boasting over 150 years of accumulated veterinary experience! You will learn diagnostic laboratory procedures, animal disease, anatomy and physiology, surgery and anesthesia, diagnostic imaging, dentistry and client communication.

Veterinary Medical Receptionist (VMR) Certificate

1 Year Certificate | September Start | Olds Campus or Online

Combine office administration and veterinary medicine skills to train as a valued member of a veterinary team. The Veterinary Medical Receptionist provides client care as the “face of the practice” and hands-on animal care to both farm and companion animals. This eight-month program begins in September and culminates with a four week industry practicum. Students who chose the online delivery method are required to attend a week-long campus lab in addition to the industry practicum.

Veterinary Technical Assistant (VTA) Certificate

4 Month Certificate | September Start | Olds Campus

Animals need care and love. A Veterinary Technical Assistant provides both. In as little as four months you can receive a VTA certificate and start a career doing something you are passionate about. This is an entry level program that will introduce you to the veterinary industry and animal care. The VTA is a valued member of a veterinary team and works along side professionals who specialize in small animal care.

Business

Business Management Certificate

1 Year Certificate | September Start | Olds Campus

This certificate will provide you with foundational knowledge and skills that will prepare you for management-related careers and further education. This one-year program covers management, marketing and introductory accounting, as well as, workplace communication and professionalism.

Business Management Diploma - Sports Management Major

2 Year Diploma | September Start | Olds Campus

Take your passion for sports, fitness and recreation to the next level! Sports Management graduates combine the administration of sport, fitness and recreation with the foundations of business to work as leaders and planners in an ever-changing field. This program will provide you with tools to be competitive in a sport-related career and life.

Business Management Diploma - General Management Major

+1 Year Diploma | September Start | Olds Campus

The Business Management Diploma builds upon the foundation of the certificate and provides a unique, project-based learning model that will prepare you for the real world. In only one more year of study you will benefit from small group learning and putting your knowledge to the test by solving real-world problems.

“Not only are there plenty of opportunities for networking, jobs and hands-on experience in the Business Management program, there are also numerous extracurricular activities which enables students to gain real life experience while completing their education.” Emily Byers, Graduate

Equine

A national leader in equine related training, the Canadian Equine Centre of Innovation provides students with hands-on learning opportunities that will prepare them for a career in Equine. The Centre includes a farrier facility equipped with four coal forges, 12 gas forges and a 16 foot workshop trailer for industry field trips. The Centre also includes an equine reproduction facility that provides students with the opportunity to practice and perfect their skills through participation in the on-campus commercial breeding/foaling operation.

Equine Reproduction Technician Certificate

1 Year Certificate | October Start | Olds Campus & Online (Blended)

This hands-on program combines four months of online learning with four months of onsite, hands-on training. Students will participate in the management of pregnant mares prior to foaling, during foaling and after foaling as well as care of the neonatal foal.

Farrier Science Certificate

1 Year Certificate | September Start | Olds Campus

One of a kind and recognized as providing the finest farrier programming in North America, our students benefit from hands-on experiences. The program covers trimming, forging and fitting handmade shoes combined with horse anatomy, physiology, welding, record keeping and business management.

Horticulture

Arboriculture Certificate

4 Month Certificate | January Start | Olds Campus

Technicians learn and apply guiding principles of tree care and management in sustainable urban ecosystems. Within the four-month program, students adhere to current industry safety standards and practices while honing their skills indoors in our unique Landscape Construction Pavilion. The nature of the work requires that you be in above average physical condition and well prepared for outdoor work in a variety of weather conditions.

Horticulture Technologist Diploma 2 Year Diploma | September Start | Olds Campus

Bachelor of Applied Science Degree - Horticulture Major +2 Year Degree | November Start | Olds Campus

Horticulture students explore the production and management of plants, pests, landscapes, soils and water systems to achieve productive and sustainable systems. Graduates will apply their knowledge and skills in the areas of horticulture crops, landscape design, construction and maintenance. Graduates can progress from diploma to degree options as needs and career paths change.

Turfgrass Management Diploma 2 Year Diploma | January Start | Olds Campus

Bachelor of Applied Science Degree - Golf Course Management Major

+2 Year Degree | November Start | Olds Campus

This program features state-of-the-art facilities and a schedule aligned with the industry. Students study renovation, construction, irrigation, design, and water management through collaboration with faculty experts. Certificate graduates can progress to diploma and degree options as needs and career paths change.

Land & Environment

LAND & WATER RESOURCES DIPLOMA

At Olds College we see ourselves as stewards of the land. Every area in which we work, study, and live is directly related to the world around us. Industry trusts us to be a first class training institution in the area of Land & Environment training, specifically in training Land Agents, and Land and Water professionals.

Land Reclamation and Remediation Major

2 Year Diploma | September Start | Olds Campus

The reclamation industry helps ensure disturbed or contaminated land is put back to its original state. Reclamation has become big business, especially in Alberta, British Columbia and Saskatchewan.

This major prepares graduates for careers in land reclamation, environmental stewardship and rural planning emphasizing environmentally sustainable land management practices.

Environmental Stewardship and Rural Planning Major

2 Year Diploma | September Start | Olds Campus

As our population grows, there is an increased need for rural and urban development. Planners have the knowledge and put the plans into place which improve public and private developmental decisions.

This major prepares its graduates for careers in land reclamation, environmental stewardship and rural planning emphasizing environmentally sustainable land management practices.

Tourism, Brew & Meat

Brewmaster & Brewery Operations Management Diploma

2 Year Diploma | September Start | Olds Campus

This program targets a diverse range of enthusiasts and professionals who desire to pursue a career in the vibrant and growing craft beer industry. Learn the art, science and business of brewing great craft beer in our 2,300 square foot state-of-the-art facility from staff with extensive experience in the brewery business. The Brewmaster and Brewery Operations diploma program provides hands-on training and our retail outlet adjacent to the teaching brewery will provide you with opportunities to connect with customers.

Hospitality & Tourism Management Diploma

Now Offering Two Completion Pathways!

15 Month Accelerated Pathway | Mid-August Start | Olds Campus

2-Year Pathway | Mid-August Start | Olds Campus

This unique diploma will prepare you with a solid management-focused education allowing you to be employable in many businesses around the world. You will be able to work in the travel industry, food tourism, special event management and many other industries. Students will learn in state-of-the-art facilities, benefit from our relationships with organizations, and focus on real-life, hands-on learning.

Meat Processing Certificate

15 Week Certificate | September, January and May Start | Olds Campus

This certificate is unique in North America, as students learn the whole process stream from slaughter to retail in just 15 weeks. Where big plants once dominated the industry, the art of professional meat cutting is back. We teach practical technique and science for the highest premium quality cuts. As a successful graduate you will gain the experience needed to start your own entrepreneurial business venture or take your skills to Canada's third largest industry.

Trades & Apprenticeships

With up-to-date facilities, new equipment and innovative partnerships, Olds College is your one-stop-shop for full-time, apprenticeship, pre-employment and industry training programs. Our skilled trades offerings will give you the knowledge and skills to be successful in many fields essential to the economy.

Apprenticeships

- Agricultural Equipment Technician
- Heavy Equipment Technician
- Landscape Horticulturist
- Welder

Pre-Employment

- Heavy Equipment Technician
- Motorcycle Mechanic
- Welder

Industry Training

- Case New Holland Technician
- John Deere Technician
- Continuing Education

Agricultural & Heavy Equipment Certificate

1 Year Certificate | September Start | Olds Campus

If you want to get your hands on the newest and largest industry equipment in service come to Olds College. This comprehensive program will give you a thorough understanding of engines, hydraulics, braking, electrical, starting, charging, fuel systems and more. Our classrooms are discipline specific (i.e. motor lab, machinery lab) with small student to instructor ratio and personal workbenches. With our experienced Journey person certified, industry-trained instructors you will receive an education placing you at the forefront of the technical curve. Our extensive tool room exposes students to a wide range of tooling solutions for better problem solving. Our large workshops comfortably house industry equipment for overhaul projects. Students may be eligible to write their first and second period technical training exams with AIT and are credited a portion of their on-the-job training hours towards their desired trade.

Agricultural & Heavy Equipment Diploma

- Agricultural Equipment Major
- Heavy Equipment Major

+1 Year Diploma | September Start | Olds Campus

This comprehensive program will give you the confidence you need to work on the newest and largest industry equipment. Upon graduation, you'll gain a thorough understanding of engines, hydraulics, braking, electrical, starting, charging, fuel systems and more. Year one covers fundamentals and graduates can choose to write the first and second period apprenticeship exams. The second year allows you to specialize in either agricultural or heavy equipment. Graduates can write exams for full technical accreditation and Journey person Status (pending completion of required hours).

Heavy Equipment Operator Certificate

12 Week Certificate | September and March Start | Olds Campus

In this program you will gain the skills needed to safely operate heavy machinery in a wide range of industries: construction, mining, forestry, materials handling, landscaping, land clearing, agricultural, and transportation. The Heavy Equipment Operator program is constructed to ensure entry level operators attain a professional standard in a twelve week program, followed by a two week practicum. Some equipment you may learn on includes a skid steer, compactor, loader, dozer, grader and excavator.

Paying for your education

Tuition & Fees

Costs vary depending on the program. Updated fees are released in April and can be found online. Specific program breakdown can be found at oldscollege.ca/fees.

Tuition/Fee Example

Average Yearly Tuition (vary/program) \$4,500

Program Fees (vary/program) \$80 - \$800

Books and Supplies (vary/program) \$500 - \$2,500

Other Fees \$800

Health & Dental Plan \$350

Financial Awards

Each year Olds College offers approximately 450 awards, scholarships and bursaries to our students. We are grateful to our many award donors for their generous support of our students. We have two types of awards at Olds College: Fall Awards, given out in November, and Winter Awards, given out in March.

Our online application makes it easy to apply for all eligible awards and students can apply as early as their first day of classes! Receiving an award will help with funding your education and awards look great on a resume for future employers.

Visit our website to access the awards applications and to view the many awards available:

oldscollege.ca/scholarships

Ready to Apply?

Submit your Application

Important Dates

October 1: applications open for programs that start the following summer and/or fall.

February 1: applications open for programs that start the following winter and/or spring.

Apply early as programs fill quickly. Conditional admission is available for Grade 12 students and those upgrading. Some programs have different dates, visit our website for more details.

Campus Visits

Experience the programs before applying!

- Schedule a tour
- Attend Open House
- Learn about career opportunities
- Explore our campus
- Talk to current students and staff

Visit our campus and learn more about the programs we offer at oldscollege.ca/visit.

How to Apply

- 1. Pick your program**
- 2. Complete an application at oldscollege.ca/apply** (\$75 + GST application fee, International \$150 + GST)
- 3. Send us your most recent academic transcripts** (only if you did not apply online or if your transcripts are from outside Alberta)
- 4. Once admitted, pay your tuition deposit by the deadline**

Admission steps for apprenticeships vary. More information is available at www.tradesecrets.alberta.ca.
